

Management :

After 30 years of work experience as director of Turkish Airlines in 4 different countries ,we have observed the lack of services at destination points for the travelers . Especially during the position as Sales manager for İstanbul of Turkish Airlines ,the close relations with the travel agencies and business environment have lead to the decision of establishing the Destination Management Company .DMC KURT GmbH founded in 2012 by Eray Kurt in Munich,to fulfill the needs of the travelers for business in any field of destination management.
